

Forest of Reading – White Pine Award
Synchro Boy by Shannon McFerran

Activity #4 – Writing Activity

As we read a novel, we can come across passages where we question why a character does what they do, or why they react to a situation in the way that they do. As a reader, we may think there could have been a better response or reaction which would have provided a better outcome.

Pick a scene from the novel where you as a reader felt that you would have said or done something differently than what happened. This could be a small or large scene. Identify your scene below and then rewrite it with how you would have reacted in the same scenario. Share your results with the group.
