

# THE SKULL

BY JON KLASSEN

Venn diagrams help you to compare and contrast ideas and information. There is a Venn diagram on the following page. Please add the following information to the Venn Diagram:

- Place your name in the top of the left circle and Otilla's at the top of the other circle.
- Add character traits (with proof) that Otilla displays in the book (e.g., kind-Otilla gets the skull a pear because he is unable to reach it) if you are also kind you can add the trait to the intersection of the 2 circles.
- Add your own character traits (with proof), again placing them in the centre if you share your traits with Otilla.
- Decorate the sides of your page with important symbols from the book whilst thinking about what you have in common or don't have in common with Otilla.
