

Name: _____

Gnome Is Where Your Heart Is Junior Forest Ranger Activity

During one of their assignments for the Junior Forest Rangers, Lemon and Marlo find out that Rachel is an amateur **mycologist**, meaning someone who studies mushrooms.

A good Junior Forest Ranger always documents their findings. **Research three different types of mushrooms**, and using the space below, record **three facts for each**. Here are some suggestions of questions you can ask yourself when looking for your facts: Are they a unique colour? Are they poisonous? Do they only grow in certain climates? To complete your research, accompany your findings with a **sketch of each mushroom**. Good luck Junior Forest Ranger!

Mushroom Name	Fact #1	Fact #2	Fact #3	Sketch
