**Document #3**  
**Swept Away: Ruth Mornay and the Unwanted Clues**  
**VIP Tree**

When Ruth was assigned a family tree history project at school, she had a difficult time completing it because her father offered very little information about his side of the family. This left Ruth feeling upset that her family tree looked incomplete.

Using the space below, create your own VIP tree by including the most important individuals in your life written on the tree's branches and positive characteristics about them on the individual leaves.
