

## PAWS: Mindy Makes Some Space- Cuisine Research Activity

Food from various cultures are talked about a lot throughout the book. Mindy and her Mom make **bibimbap**, a Korean dish that consists of veggies, meat, and rice with a fried egg and spicy sauce. Priya mentions that her Mom is making **Aloo Gobi**, which is one of Gabby's favourite Indian dishes. Gabby also talks about how much she loves **Banh Mi**, a type of Vietnamese sandwich.

Research three different types of cultural cuisines. Using the chart below, record the country the dish is from, the name of the dish, what ingredients are involved, and what the dish looks like. You can either use a photo of the dish you find online, or be creative and draw what it looks like! Feel free to use the back of the page for more space if needed. As a bonus activity, try making one of these dishes at home!

| Country of Cuisine | Name of Dish | List of Ingredients | Picture of Dish |
|--------------------|--------------|---------------------|-----------------|
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
|                    |              |                     |                 |
