

Red Maple Activity: Art Activity

The Time Keeper by Meagan Mahoney

Name: _____

“There were countless machines and gadgets invented for any task you could think of, from winding clocks to washing windows to making tea. They looked like wild creatures that were fast asleep but could wake at any moment.” (Page 10)

Draw a machine or gadget that you think might be in Jack’s workshop. What does it do? How does it work? Would you want one of these for yourself?
