

Zoom in on Zombies by Kari-Lynn Winters and Catherine Rondina

Fill in the Blanks

Use the words from the word bank to fill in the blanks.

Humans can be zombified by staring at our phones.

Worm-like parasite eggs are found in bird poop. When snails eat them, they become infected, then birds eat the snails and the cycle continues.

The parasitic wasp will infect ladybug to lay her eggs.

The combination of their diet of swampy plant matter and their slow digestion is what makes stinkbirds smell like manure.

Rabies spreads through the bite of infected animals.

Sea Monkeys come to life when put in salt water.
