Have you ever been to a **rock concert** for reading? This is your chance – be part of the largest literary event for young readers in Canada, the Forest of Reading® Festival!

About the Festival

The Forest of Reading® and its Festival are Canada's largest recreational reading program and event. Every year, more than 270,000 children read and vote for their favourite book in a number of age-specific award categories. This culminates in a 2-day Festival celebration in Toronto. Each year, over 6,000 people attend the event at Harbourfront Centre in Toronto.

Who attends?

Over **6,000**
Young Readers

40 authors/illustrators
in attendance

20 exhibitors
each year

The target audience for the Festival is school-aged children from across the province, as well as families who are passionate about reading Canadian books. Thousands of young people pour in off of dozens of school buses & public transit, including many from remote communities that don't have access to this type of event.

The Festival targets more than 6,000 public, catholic, and independent schools across Ontario, as well as parent council groups. Targeting readers from kindergarten to Grade 12 and encouraging parent interest is an integral part of this process. OLA will reach all public libraries across Ontario through the Ontario Public Library Association.

Benefits for exhibitors

Brand Awareness

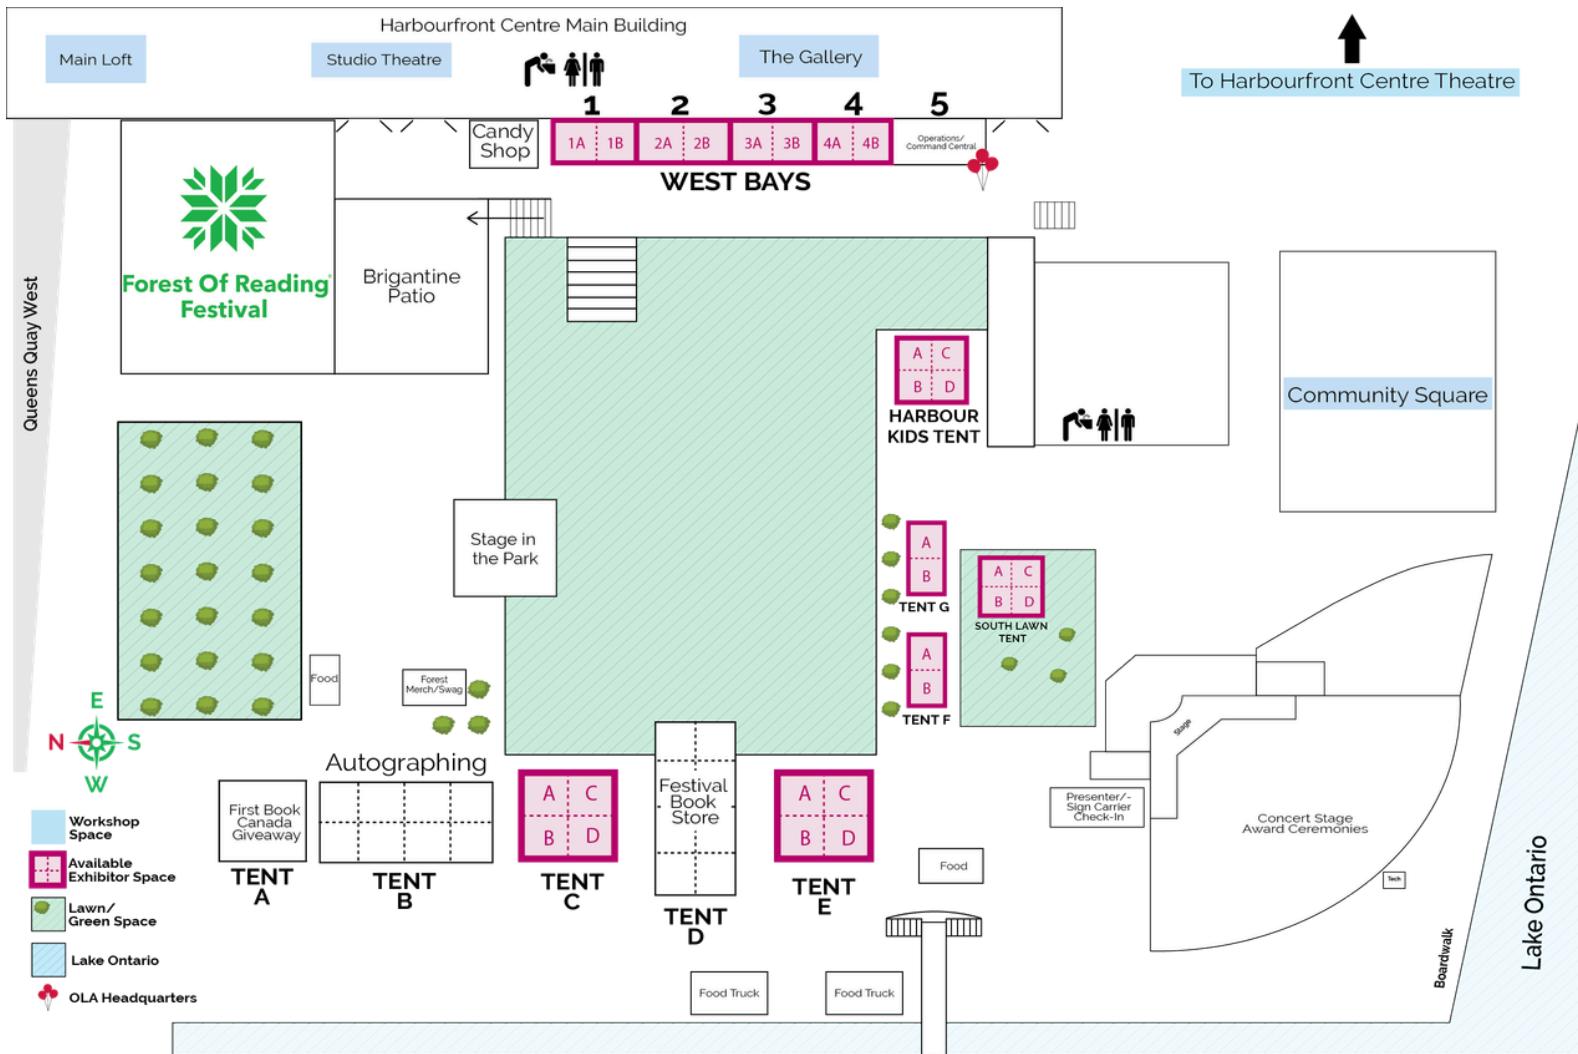

Opportunity to engage with young readers, their educators, families and friends. Hands on programming, fun and interactive games, or experiences that captivate the audience are the best type of exhibitors. Many exhibitors are there for the exposure of their programs to this audience.

Engage with Young Readers & Educators

Exposure to book lovers and fans: The Toronto Forest of Reading Festival has a total combined audience of more than 6,000 young readers, with thousands more reached at local school visits. For authors and illustrators, the Festivals is an opportunity to connect with readers who have read their books, ask questions, and provide invaluable feedback.
